

NATURAL INSERTION RUBBER STRIP

Natural rubber with one or two layers of cloth insertion through the rubber. This strip is ideal for gaskets, drop sheets for stables or horse floats, wall protection, mud flaps, quarries and trucks. The cloth insertion layer gives it a higher compression strength. These are sold by increments of a metre or in a standard coil length of 10m.

Available sizes:

Size	Code	Size	Code	Size	Code
25x1.5mm	52243	75x3.0mm	34020	150x4.5mm	52113

EPDM RUBBER STRIP

This rubber strip is smooth on both sides and is ideal for gaskets. It has resistance to temperatures up to 140°C, good wear and ozone resistance and moderate resistance to acids. These are sold by increments of a metre or in a standard coil length of 10m.

Available sizes:

Size	Code	Size	Code	Size	Code
25x1.5mm	52211	75x3.0mm	52186	150x4.5mm	52079
25x3.0mm	52185	75x4.5mm	52214	150x6.0mm	52081

NEOPRENE RUBBER STRIP

Smooth on both sides and is great rubber for gaskets. It has good oil, temperature, ozone and weather resistance with moderate acid resistance. These are sold by increments of a metre or in a standard coil length of 10m.

Available sizes:

Size	Code	Size	Code	Size	Code
25x1.5mm	52200	75x3.0mm	52163	150x4.5mm	52087
25x3.0mm	52178	75x4.5mm	52169	150x6.0mm	52120
25x4.5mm	52202	75x6.0mm	52170	300x1.5mm	52161
25x6.0mm	52179	100x1.5mm	52060	300x3.0mm	52162
50x1.5mm	52084	100x3.0mm	52117	300x4.5mm	52217
50x3.0mm	52085	100x4.5mm	52086	300x6.0mm	52190
50x4.5mm	52088	100x6.0mm	52119	1200x1.5mm	52028
