

## FOAM MATTRESSES/BEDDING

Our mattresses are made in New Zealand using polyurethane foam and they have polyester covers. There are a variety of densities available, we stock these:

- **Standard:** Made of light/soft 16-100 foam. It is easy to transport by folding or rolling which makes it ideal for camping, vans, holiday homes, children's beds, and spare beds for Occasional use.
- **Regular Use:** Made of medium/soft 20-100UF foam with the added Ultra Fresh® for protection against dust mites, mould, and mildew. It is easy to transport by folding or rolling which makes it ideal for marae bedding, caravans, motorhomes, camping, holiday homes, children's beds, and spare beds for Regular use.
- **Premium heavy duty:** Made of higher density/medium 28-130 which is more suitable for every night use and applications where it will be used for dual purpose seating and sleeping like a caravan/motorhome squabs or day beds.
